
TEAMWORKS KARTING

EMPLOYMENT OPPORTUNITIES

Race Director

Race Director Birmingham Circuit

£6.85 + per hour. Part-time/ weekend positions

Race Directors are responsible for running each race event, including:

- ↘ Greeting & signing in customers.
- ↘ Delivering the race briefing.
- ↘ Overseeing the race event from the Control Tower.
- ↘ Operating the race control timing & display systems.
- ↘ Delivering the drivers' presentation ceremony.
- ↘ Overseeing the track reset for the next event.
- ↘ As keyholders, responsibility for opening and locking up, resetting tills and managing stock in the bar & café

Race Directors receive formal training from the National Karting Association and must also qualify as First Aiders, before receiving on-the-job computer training to operate race timing systems, and in-house training on managing race crew and customers.

Race Directors have in the past been recruited mainly from people with motorsport background or experience, and internally promoted within the company, but the role is suited to any computer-literate person with strong customer-facing skills, and proven team management ability. Motor racing experience (either as a competitor or as a spectator) is an advantage.

One Race Director is required for each race event, therefore a pool of at least 1 full-time and 2 part-time Race Directors are required to provide cover for events 10am-10.30pm, 7-days a week.
